

Cleaning and Transporting a LCD Monitor Screen

Properly caring for your LCD monitor screen is very important. The LCD monitor is very easy to scratch and tear. Therefore it is very important that you take special care when cleaning and traveling with your monitor. Below are some guidelines to assist you.

- ✓ Always wipe the monitor with a soft lint free towel or microfiber cloth.
- ✓ Clean the monitor only with distilled water.
- ✓ Wrap a soft towel around the LCD display screen when traveling.
- ✓ Place the monitor on a level surface during transport.
- ✓ If the monitor is laid down, verify nothing is pressing against the monitor or can fall down onto the monitor.
- ✓ Do not use your speaker bar as a handle. It can become detach easily.
